ELECTRICAL REQUIREMENTS

The Showmobile requires 110 electrical watts on 2-40 electrical circuits at the staging location. The City of Tallahassee will not provide power poles, transformers or other power to existing locations. Do not place the staging of the unit in locations that do not have power. The proper electrical power is needed at the staging location. The Showmobile unit has four (4) quad boxes that are available for your use on the wall panels inside of the unit.

ACCESSORIES

Standard overhead white lighting equipment is included in the price of the Showmobile stage. If any additional sound and lighting equipment is needed, it is the responsibility of the applicant to contract out these services independently. The applicant may use his/her own sound and lighting equipment; however the applicant must provide his/her own technician and insurance. PRNA also offers audio services through its Special Events Division. Please contact 891-3885 for more information.

ADA GUIDELINES

The Showmobile performance stage has a hydraulic wheelchair lift and, if needed, the Parks, Recreation & Neighborhood Affairs (PRNA) technician will operate the lift during performances. For performances on the riser stage, please notify PRNA ten (10) days prior to a performance of accessibility needs for accommodations. Event Planners will be responsible for setting up barricades in a manner to conform to ADA guidelines.

STREET CLOSURES

If City of Tallahassee street closures are required, a permit for closure is necessary and can be obtained through the Tallahassee Police Department at 891-4625. The Showmobile stage will not be setup if streets are not barricaded and closed off. Security and traffic control are required for events. It is the responsibility of the event planner to pay for all security and traffic control personnel. The cost is **not** included in the application fee.
