<input type="checkbox"/>	Adding new appliance types e.g. firelogs where none before
<input type="checkbox"/>	I would recommend natural gas appliances to friends and family
<input type="checkbox"/>	I am participating in the City's Energy-Efficiency Loan Program

Other Conditions and Requirements:

- If required by City or County Building Inspection, an appropriate installation permit and inspection or sticker must be obtained from the authorized local Building Inspection jurisdiction (City of Tallahassee, Leon County, Gadsden County, or Wakulla County, as applicable).
- Rebates are subject to change without notice and are subject to approval.
- You must have or install a natural gas water heater or furnace to receive range, dryer, fire log, grill, pool/spa or gas light rebates.
- Your paid receipt(s) for appliances purchased, and your paid invoice(s) for contractor installation charges, must be submitted with application.
- Rebates are applied as a credit to a Homeowner's City utility bill; or, for gas appliances installed prior to Certificate of Occupancy (CO) in New Construction, provided as a check to Homebuilder.
- Rebates cannot exceed the total installed cost for the appliance(s).
- Rebates will not be given for stub-outs; appliances must be installed.
- Rebates will only be paid for newly-purchased appliances or appliances converted from propane, NOT for used appliances purchased after-market.
- Rebates are limited to one for each type of natural gas appliance at a given address, except for gas lights.
- Replacement appliance rebates (column B) are for natural gas-to-natural gas appliance replacements.
- \$2,000 Gold Package Bonus applies to first-time installations of a water heater, furnace [or a combination appliance], and either a gas range or dryer, all installed in one job at the same time. (The \$425 "Gold Package Bonus" brings the total rebate to \$2,000.)
- "Combination appliances," which heat the home as well as the water, qualify for the furnace + water heater rebates (\$1,375) only if a complete new system is installed (new high-capacity gas water heater, hydronic loop and controls).
- If the Homeowner wishes to have the rebate issued as a check to his or her Installing Contractor that should be indicated on this form or on the contractor's installation proposal that is signed by the Homeowner.
- This application must be completed entirely and submitted within 12 months of final inspection for rebates to be paid.

I have read and understand the above conditions and requirements of this rebate application.
